

SWITCH-PROS®

Can-Am Maverick R '24-'25 Dash Mount for Switch-Pros® SP9100

Kit Includes
Dash Mount (1)

Required Tools
5/16" Socket/Wrench

Installation:

1. Remove the rocker switch cover plate from the dash. Carefully pry downwards from the top edge.

Note: You do not need to remove the whole dash piece to install this mount.

2. Route the Comm Cable to the back of the dash.

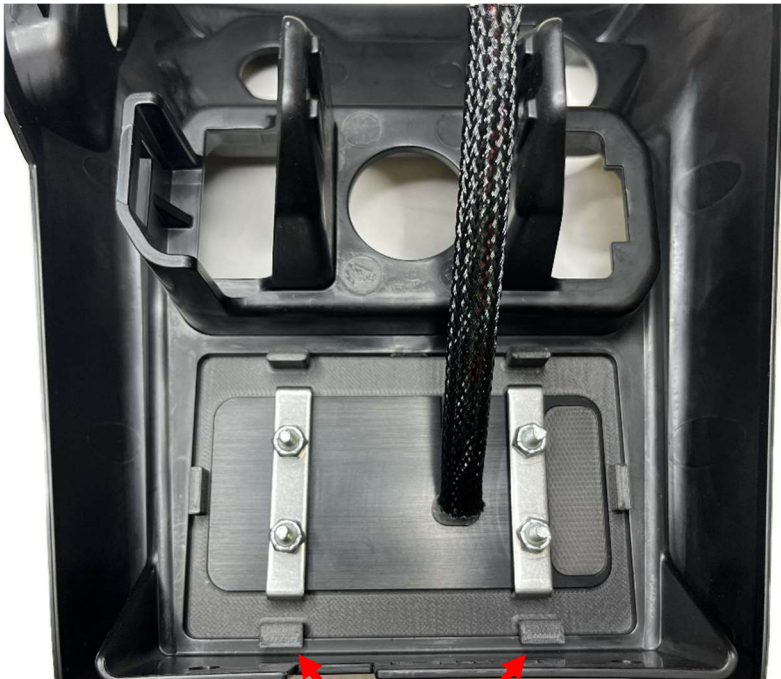

3. Attach the Switch Panel to the Dash Mount using the SP9100 bezel brackets and hardware supplied with the system and a 5/16" socket/wrench.

5/16" Wrench
(4)

4. Plug the Switch Panel harness into the Comm Cable. Attach the Dash Mount to the dash of the vehicle. Hook the bottom tabs in first, then push the top of the plate until the mount snaps into place.

STEP 1:
Hook Bottom
Tabs

STEP 2:
Push Top until
Mount Snaps
into Dash
